Kia ora,

This is an update regarding the final accounts and the closure of Collett's Corner.

Final Accounts

As promised, [here](#) is a link to the final accounts. If you have any questions, please send them through.

Closing the Company

We received the letter from IRD stating that they have no objections to closing the company. However, the Companies Office has declined our request to close the company, saying they require every shareholder's signature. We are working with our lawyer to explore alternative pathways to close the company formally. If it is necessary to obtain each shareholder's signature, I will be in touch again. If not, then this will be my final email to you.

Circle Living

A new company is forming to deliver community-minded property developments across Aotearoa, New Zealand. I have been working with the team to deliver the [Tākaka Cohousing Neighbourhood](#). They are a highly experienced and capable team. They are launching an equity crowdfunding campaign. You can [find out more here](#).
